Report of the seminar in Bajaur
Dec. 14 - Dec. 30, 1991

According to the revised work plan starting in October, we had a seminar for 40 CAR school teachers in Bajaur for 15 days. Bajaur PMT was advised to prepare for the seminar and discussed the matter with local office of UNHCR in order to recruit the teachers on time. 40 teachers were selected by the team and headmasters of the schools from different camps in Bajaur.

The materials needed for the seminar were ready on time including teaching and teaching aid materials. The seminar started on Dec. 14, 1991 in the secondary school of Yousif Abad, by the recitation of verses of Holi-Quran. After the recitation the chairman of the seminar Mr. Abdul Haq explained to the trainees the objectives, regulation and the teachers to follow them and try to get enough benefit from the seminar. At this stage a pre-seminar evaluation test was given and the 40 teachers were divided into group A and B, 20 teachers each.

When the teachers were divided into two classes teaching materials such as Methodology, Child and educational psychology, educational evaluation, and teaching method of Islamiat, Pushto and Math were distributed. Teaching aid materials like pen, pencil, small marker, chart marker, color pencil, charts, paper, file, geometric box, scissors, velcro, notebook, rulers, were also distributed. Since the schools were on winter vacation the classes of the seminar were from 8:30 A.M upto 12:50, 6 periods per day with 20 minutes for tea break.

The following Bajaur PMT supervisors took active part in the seminar teaching the related subjects:

1. Educational evaluation by Ghulam Ali
2. Child psychology and teaching method of Pushto by Enayatulah
3. Teaching aid materials and the teaching method of mathematics by A. Haq
4. Educational psychology by S.Ahmad
5. Methodology and the teaching methods of Islamiat by Hadayatulah

After giving them some training in the subjects the supervisors gave them model lessons related to the subjects taught in the primary schools. In these model lessons the supervisors used all the information of the subjects taught in the seminar, like using the feltboard preparing other teaching aid materials locally. During the last five days the trainees were asked to give model lessons in language, Islamiat, and mathematics. In both cases the weak and strong points of the model lessons were discussed until everybody agreed. Trainees' participation in the class discussions and group work were encouraging.

The seminar ended with success on Dec. 30, 1991 after post-seminar evaluation the result of which was interesting and fruitful.

There was a simple graduation ceremony in which Amir M. Ahmadi, elders of the community, PMT supervisors, and seminar participants were present. This ceremony again started with the recitation of verses of Holi-Quran by one of the trainees. At this stage Amir M. Ahmadi on behave of Solidarite Afghanistan welcomed the elders to the ceremony and congratulated the participant upon their successful completion of the seminar. Ahmadi clarified the importance of each subject of the seminar in the process of teaching-learning. The implementation of these technics in educating Afghan children is very important for the reconstruction of Afghanistan.

After Ahmadi one teacher by the name of M. Sayed on behave of his colleague appreciated the materials of the seminar and the hard work of the PMT supervisors in Bajaur. He promised they would use all the information during teaching Afghan children. I (Ahmadi) as pedagogic director observed the process of the seminar on Dec. 28 and 29 was satisfied with the implementation of the programme.

At the end the certificates were given by Ahmadi and the teaching aid materials were given to each teacher to use it in the schools. These are the materials we give to the teachers after training in the seminar. Also Rs. 60 daily allowance was given to each trainee.

This was the summary of the seminar in Bajaur by Bajaur PMT, lists of materials distribution before the seminar and after the seminar with the results of two evaluations are annexed.

With best regard

Amir M. Ahmadi
Pedagogic Director
